

# Protecting the Smallest Starts with You.

Urge your lawmakers to **EXEMPT BABY SAFETY GEAR** from tariffs — including car seats, strollers, playards, bassinets, swings, and highchairs.

**TAKE ACTION NOW**

**Prices have increased on essential baby safety gear over the past several months – and they could rise even more.**

As a parent, you’re well aware, these are not luxury items. They're critical safety tools that protect our most vulnerable family members.

When costs go up, families may be forced to choose less safe alternatives. No parent should ever have to make that choice.

To help advocate on the behalf of American families, we’ve written a letter for you to send to Congress urging your lawmaker to **exempt baby safety gear from harmful tariffs**.

## HERE'S HOW YOU CAN HELP MAKE A DIFFERENCE TODAY

1.

Sign a letter asking lawmakers to exempt baby safety gear from tariffs
